LET'S INTEGRATE  
POLISH **BSD** USER  
GROUP.

WE ARE  
BSD PL

## COMMITTERS FROM WHEEL/FUDO

“We have 3 committers on board,  
and several daily users”

## OTHER USERS

“Ask some colleagues from other  
companies, like Oktawave”

## EXAMPLES FROM AROUND THE WORLD

“See how they do it somewhere  
else. Prague, for instance”

## SPREAD THE WORD

“Come on, let’s talk BSD.”

The screenshot shows an Eventbrite event listing. On the left, there is a vertical banner with the text 'ENGINEERING TECHNOLOGY' and 'I, 2018, 6PM'. The main event title is 'The Polish BSD User Group Meetup #6' by Fudo Security (Wheel Systems' Brand). The price is listed as 'Free'. A green 'REGISTER' button is visible. Below the main listing, there is a section for 'DATE AND TIME' showing 'Thu, October 11, 2018, 6:15 PM - 9:15 PM' and a link to 'Add to Calendar'. At the bottom, there is a section for 'LOCATION' with the text '- Mariusz'.

# EVENTBRITE

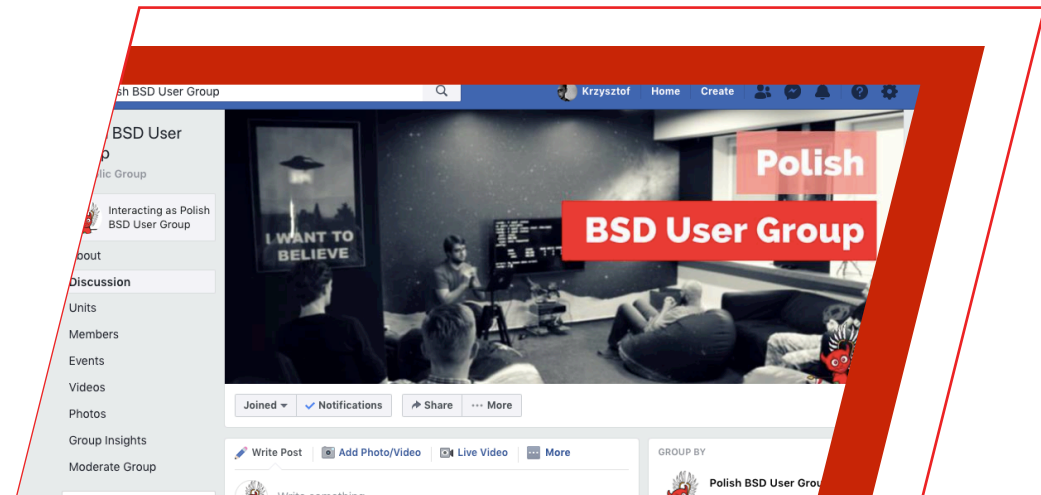

Do register, we need enough pizzas!

The screenshot shows the website for the Polish BSD User Group. On the left, there is a logo featuring a red devil character with wings and a pitchfork. Below the logo are social media icons for Mail, Facebook, Twitter, and YouTube. The main content area is titled "About us" and contains a paragraph of text describing the group's purpose: to promote BSD systems and organize meetings for Unix lovers. Below this is a section titled "Our upcoming meeting" which lists the date as October 11, 2018, from 18:15 to 21:15, and the location as Warsaw University of Technology, Faculty of Electrical Engineering.

**BSD-PL.ORG**

**FB.COM/GROUPS/BDSPOLAND**

The screenshot shows the Facebook page for the Polish BSD User Group. The page header includes the group name and navigation options like "Home" and "Create". The main content area features a video thumbnail with a red overlay that says "Polish BSD User Group". Below the video are buttons for "Joined", "Notifications", "Share", and "More". At the bottom, there are options to "Write Post", "Add Photo/Video", "Live Video", and "More". The page is framed by a red border.

## Polish BSD User Group

Oct. 3, 2018, 8:03 p.m.

In a couple days there will be another meeting of the [Polish BSD User Group](#)! It's already our 6th meeting, which means that the group has been running for almost half a year. The next meeting will be a special one, because we will be guests at Warsaw University of Technology! Considering all of this I decided to summarize our accomplishments.

We decided to start Polish BSD User Group to promote all BSD operating systems in Poland. We don't know any other group working in Poland. All of that was inspired from one of the Bay Area FreeBSD User Group meeting that I had chance to attend. After a short talk with my colleagues from Fudo Security, we decided to give it a try and organize our first meeting!

Before we started we need to figure out a few things. We started from a few assumptions about for whom and how the group should work. The first assumption was that we don't want to do conferences, so our meetings should not be focused on presentation but should be about networking and solving user problems. Yes, we assumed that it would be nice if people would come to the meetings with some BSD-related problems and somebody will be able to help them. This is why we decided that presentations should not be longer than 15 minutes, and only should show some interesting part/feature of one of the BSD operating systems.
